## On all SFI and CS Mixes

We have mixes available for all Countryside Stewardship and Sustainable Farming Incentive actions and options.

### POPULAR MIXES RIGHT NOW:

#### **NUM3/AB15 • 2-3 Year & Rotational Legume Fallow**

1 and 2-3 year option with or without grass. Reduces flowering blackgrass and provides valuable food sources for beneficial insects and farmland birds. Adds nutrients into the soil and improves soil health and structure.

#### **AHL2/AB9 • Wild Bird Mix**

Provides important food resources for farmland birds during autumn and winter. 3 mixes available: Finch & Bunting, Tree Sparrow & Grey Partridge.

#### **SAM3/GS4 • Herbal Ley / Legume & Herb Rich Swards**

Provides a vigorous sward with abundant legumes and herbs, suitable for productive cattle and sheep. Offers habitat and food for invertebrates and crop pollinators while improving soil structure and water infiltration.

**Prices frozen  
for any order  
received by  
1st March 2024**
