

Autumn Tree Planting Options

If you are planning to plant trees this autumn, Hubbards Seeds is pleased to offer key British grown species in convenient bundles of 25 tree whips, including spiral guards and canes.

If you manage a farm or private land, integrating trees will bring huge benefits. We also have a mixed hedging bundle available.

What are the Benefits of Planting Trees on Your Farm?

Trees play a vital role in our natural and cultural environment. They:

- Combat climate change and provide oxygen
- Clean the air and absorb carbon
- Help prevent soil erosion and water pollution
- Provide benefits for farmland birds and pollinators
- Provide an essential canopy and wildlife habitat
- Provide helpful windbreaks
- Provide shelter and shade for livestock
- Create economic opportunities
- Improve property values
- Mark the seasons
- Lift the Human spirit

Tree bundles contain 25 tree whips up to 60 cm in height, of a single species you choose. A 50-whip mixed species bundle is also available.

See over for our Bundle options...
